TECHNOLOGIES I MASTER

Languages	Java · PHP · Python · C# · TypeScript	Databases	PostgreSQL · MySQL · Redis
Frameworks	Spring Boot · Laravel · Angular · React	DevOps & Git	Docker · GitHub · GitLab
AI & automation	AI agents · n8n · LLMs · RAG · Machine Learning · Deep Learning · NLP		

8+	MSc	60	794 h	11
years building software	Artificial Intelligence · UNIR	courses and certifications	of certified training	company and personal projects

PROFESSIONAL PROFILE

Systems Engineer with a Master's in Artificial Intelligence, 8+ years of software development experience and a career in technology since 2010. As a Senior Full Stack Developer at Security Data, I design, build and maintain distributed production systems with **Java · Spring Boot**, **PHP**, **Angular**, **React** and **PostgreSQL**, such as AutoLink, an electronic-signature platform integrated with Issabel/Asterisk telephony and WhatsApp APIs; I also build TypeScript SDKs and Google Chrome extensions. I am equally proficient in **Laravel**, **Python**, **C#**, **MySQL**, **Redis**, **Docker**, **GitHub** and **GitLab**, and I apply AI to real problems: **AI agents**, **n8n** automations, Machine Learning, NLP and RAG. A background in IT support, networking, servers and entrepreneurship gives me a full view, from infrastructure to product.

PROFESSIONAL EXPERIENCE

2021 — present

Security Data

Senior Full Stack Developer — present
Full Stack Developer · Mid-Level — promoted Mar 2024
Full Stack Developer · Junior — Dec 2022 — Mar 2024
Registration Operator & IT Support — Jul 2021 — Jan 2023

- Full stack development and maintenance of production systems for an electronic-signature company: backend services with **Java · Spring Boot** and **PHP**, interfaces with **Angular**, **React** and **TypeScript**, REST APIs, microservices and **PostgreSQL** data layers; debugging, refactoring and integrations with Asterisk and AI agents.
- Designed and built **AutoLink**, a distributed system —Angular, Spring Boot, PostgreSQL, Issabel/Asterisk with PHP 5 and WhatsApp APIs— that automates the issuance and renewal of electronic signatures, with orchestrated workflows, an HMAC-secured B2B gateway, a Chrome extension, a PWA and a TypeScript SDK.
- Delivered **SingExtension** (TypeScript SDK that embeds AutoLink in third-party platforms), **EC Google Extension** (Google Chrome extension with a PDF viewer), Angular microfrontends with Nx and Module Federation for document management, and **Security Image**, a corporate image manager in production.

2010 — present

Codeandolo

Independent Software Developer

- Custom desktop and web applications for clients and own projects. I started with **Java** and **C# · .NET** and moved on to **PHP · Laravel**, **Python** and **TypeScript**.

Jan 2016 — Jul 2017 — **Explofrap** · Systems Analyst — Visual Basic development, servers and network architecture.

2014 — 2017 — **Supercompu TIC** · Founder & Owner — Technical services and IT solutions business.

2012 – 2014 **Almacén V&A** · Systems Analyst — From technical assistant to head of the IT department.

ADDITIONAL EXPERIENCE

2017 – 2021 **Diners Club del Ecuador** · Credit Officer — Credit analysis and credit card portfolio management; experience with processes, risk and customer service.

2017 – 2021 **Gestiona GTX** · Field Collections Specialist — Negotiation and management of overdue and pre-legal portfolios, alongside the role at Diners Club.

2015 – 2016 **Grupo Open** · IT Technical Lead — Corrective and preventive equipment maintenance across branches in Huaquillas, Arenillas and Santa Rosa.

2015 – 2016 **Marcimex** · IT Sales Promoter — Technical sales of computer equipment and warranty management.

EDUCATION

2025 – 2026

Master's Degree in Artificial Intelligence

Universidad Internacional de La Rioja (UNIR), Spain

Degree: Máster Universitario en Inteligencia Artificial. Completed: thesis defended in September 2026, final average 8/10; diploma being processed.

What I learned: Python programming —data types and structures, functions and the standard library, OOP and advanced features—, data analysis with NumPy and pandas and visualization with Matplotlib and Seaborn; supervised and unsupervised Machine Learning, neural networks and Deep Learning, natural language processing (NLP), computer vision, automated reasoning and planning, cloud for AI and AI project management. In practice: reproducible pipelines with scikit-learn, XGBoost and TF-IDF; multimodal fusion of tabular data and text; weak supervision; cross-validation, grouped validation and hold-out; evaluation with F1-Macro, MCC, Balanced Accuracy, ROC-AUC and Log Loss, plus analysis of data leakage and generalization.

Thesis: Reproducible software pipeline for the multimodal classification of renewal and negotiability intents through early fusion of tabular data and text.

2009 – 2020

B.Eng. in Systems Engineering

Universidad Técnica de Machala (UTMACH), Ecuador

Degree: Ingeniero de Sistemas (Systems Engineer).

What I learned: programming logic, algorithms and data structures; structured and object-oriented programming; software engineering —requirements, analysis and design with UML, testing and maintenance—; relational database design and administration with SQL; web and desktop application development; operating systems, computer architecture, networks and telecommunications; information security; IT project management; and mathematics, statistics and operations research applied to decision-making.

Graduation project: web system for transport management and GPS cargo tracking for Cooperativa de Transporte Unidos, published in 2020 (ISBN 9786203032277).

PROJECTS

FOR COMPANIES 6

AutoLink

Security Data · distributed system in production

Platform for issuing and continuing electronic-signature procedures. An encrypted link restores the request, validates identity, tax ID (RUC), email and duplicate in-flight procedures, reuses documents on renewals and guides users to their next step —biometrics, video, payment or review— through orchestrated workflows. It integrates IP telephony through Issabel PBX (Asterisk) on PHP 5 and messaging through WhatsApp APIs, and exposes a B2B gateway with HMAC authentication and encrypted payloads, an inbox to recover failed requests, a Chrome extension, a PWA and a TypeScript SDK for integrators.

`Angular` `TypeScript` `Java` `Spring Boot` `PostgreSQL` `Camunda` `Issabel · Asterisk` `PHP 5` `WhatsApp API` `PWA` `Chrome Extension`

`AutoLink form · portal-sd.securitydata.net.ec ↗`

SingExtension

Security Data · TypeScript SDK for integrators

TypeScript SDK that lets other companies and institutions embed AutoLink in their own platforms and apps to issue or renew Security Data products.

`TypeScript` `SDK` `AutoLink`

EC Google Extension

Security Data · Google Chrome extension · completed

Google Chrome extension with a built-in PDF viewer to work with documents directly in the browser.

`Chrome Extension` `PDF viewer`

Security Extensions

Security Data · microfrontends for document management

Chrome extension (Manifest V3) built on a microfrontend architecture: a shell and four remote apps with Angular, Nx, Rspack and Module Federation. PDF viewer, digital signatures, encryption and certificates, Web Workers, a strict CSP and integration with AWS S3, Google Drive and Dropbox.

`Angular 20` `TypeScript` `Nx` `Rspack` `Module Federation` `Manifest V3` `AWS S3`

Security Image

Security Data · corporate image manager · in production

JPG and PNG uploads of up to 10 MB with configurable link expiration, per-user storage quotas, a library, user administration, templates and activity logs.

`portal-sd.securitydata.net.ec/security-image/`

Transport & GPS cargo tracking

Cooperativa de Transporte Unidos · graduation project

Web system to manage the company, users and roles, customers, drivers, vehicles, freight, contracts, invoicing, purchases and expenses, with GPS cargo tracking: location, departure time and estimated arrival. Published as a book in 2020 (ISBN 9786203032277).

`Web application` `MySQL` `UML`

INDEPENDENT & PERSONAL 5

Cúspide

Education management system · in production

Classes, payments, students and teachers, with a dashboard for students, enrollments, income, expenses and monthly balance.

`PHP` `Composer` `Twig` `operacionadmin.com`

Clinical Admin

Clinic management · in production

Appointment scheduling by patient, doctor and specialty, with attendance status and email and WhatsApp confirmations.

`PHP` `MySQL` `clinical-admin.xo.je`

Mnemosine

Memory and context for AI agents · V1 in testing

Short- and long-term, episodic, semantic, procedural and entity memory architecture, with knowledge, rules, tasks and reusable skills by role, language and architecture. An API gives each project only the context it needs so agents can carry work forward across sessions.

`AI agents` `API` `Markdown` `JSON`

Multimodal Early Fusion · Green AI

AI research · public repository

Multimodal classification with early fusion of tabular data and text applied to churn prediction, with a focus on model efficiency (Green AI). It is the research line of my master's thesis.

`Python` `Jupyter` `scikit-learn` `XGBoost` `TF-IDF`

`github.com/JhonnyMinian92/multimodal-early-fusion-green-ai`

uwuChat

Omnichannel customer service · multi-company

Chat that brings WhatsApp, Facebook Messenger, Instagram, Telegram, Discord and email together in a single support inbox per company.

TECHNICAL SKILLS

Languages	**Java** · **PHP** · **Python** · **C#** · **TypeScript** · JavaScript · SQL · Kotlin · Scala · Visual Basic
Backend	**Spring Boot** · Spring Security · Spring WebFlux · Spring AI · **Laravel** · .NET · Node.js · Express · REST APIs · Microservices · Kafka · Composer · Twig
Frontend	**Angular** · **React** · TypeScript · HTML5 · CSS3 · Microfrontends (Nx, Module Federation, Rspack) · PWA · Chrome Extensions (Manifest V3) · AngularJS · Responsive design
Databases	**PostgreSQL** · **MySQL** · **Redis** · MongoDB · MariaDB · IBM Db2 · Vector databases · Relational modeling

DevOps & Git	**Docker** · **GitHub** · **GitLab** · Git · GitFlow · CI/CD · GitHub Actions · Jenkins · Kubernetes · Linux & terminal · Application deployment
AI & data	**AI agents** · **n8n** · **LLMs** · **RAG** · **Machine Learning** · **Deep Learning** · **NLP** · Computer vision · Prompt engineering · scikit-learn · XGBoost · PyTorch · TensorFlow · Keras · pandas · NumPy · Matplotlib · Seaborn · Jupyter
Integration	Issabel PBX · Asterisk · WhatsApp APIs · Camunda (BPM) · B2B gateway · HMAC · Payload encryption · TypeScript SDKs
Security	Digital signatures & certificates · Encryption · CSP · Ethical hacking · Pentesting (Metasploit) · Web application security
Architecture	Clean Code · SOLID · Clean Architecture · Design patterns · Software architecture · High concurrency · OOP · Functional programming · Software testing · UML
Tools	VS Code · Cursor · NetBeans · Microsoft Visio
Infrastructure	Networking · Servers · IT support · Hardware maintenance

SOFT SKILLS

Leadership & team motivation
45-hour Leadership certificate (MIU City University Miami); head of IT at Almacén V&A and Grupo Open.

Effective & assertive communication
Santander Open Academy certificate; clear communication with users, clients and teams.

Critical thinking & problem solving
Santander Open Academy certificate; diagnosing failures in production.

Emotional intelligence & empathy
Intra- and interpersonal skills and assertiveness (leadership training).

Teamwork & collaboration
Coordination with development, support and operations teams.

Negotiation & conflict management
Negotiation of overdue and pre-legal portfolios at Gestiona GTX.

Customer focus
Customer service and advice at Diners Club, Supercompu TIC and Marcimex.

Analytical thinking
Analysis of systems, processes and risk before designing.

Continuous learning & adaptability
60 certified courses; from IT support to Senior Full Stack and AI.

Initiative & entrepreneurship
Founder of Supercompu TIC; independent developer since 2010.

Organization & time management
Engineering degree and master's completed while working.

Responsibility & commitment
Production systems and internal promotions at Security Data.

COURSES AND CERTIFICATIONS

60 courses · **794 certified hours** · Platzi (42) · Udemy (11) · Santander Open Academy (2) · UNIR (1) · AWS (1) · MIU City University Miami (1)

Certificates can be verified at `platzi.com/p/JhonnyMinian92` and `jhonnyminian92.github.io/#certificados`.

JAVA & SPRING — 12

Java Spring	Platzi · 2023 · 16 h
Java Spring Boot Fundamentals	Platzi · 2023 · 16 h
Java Backend: Web Security with Spring Security	Platzi · 2023 · 13 h
Spring AI: Build Intelligent APIs with Spring Boot	Udemy · 2026 · 7.5 h
Microservices and Reactive Applications with WebFlux and Kafka	Udemy · 2026 · 16.5 h
Introduction to Java SE	Platzi · 2023 · 15 h
Object-Oriented Java SE	Platzi · 2023 · 16 h
Java SE: Data Persistence	Platzi · 2023 · 11 h
Functional Programming with Java SE	Platzi · 2023 · 16 h
Advanced Java SE	Platzi · 2023 · 25 h
Java Testing Basics	Platzi · 2023 · 16 h
Backend with Java program · Web Development School	Platzi · 2023

PHP & LARAVEL — 6

PHP with Laravel	Platzi · 2023 · 19 h
REST APIs with PHP	Platzi · 2023 · 18 h
Object-Oriented Programming in PHP	Platzi · 2023 · 8 h
Intermediate PHP: Cookies, Sessions and Modularization	Platzi · 2023 · 17 h
Introduction to PHP with Composer	Platzi · 2023 · 6 h
Backend with PHP program · Web Development School	Platzi · 2023

FRONTEND & NODE.JS — 3

Angular Pro: Take Your Foundations to the Next Level	Udemy · 2026 · 21.5 h
Node.js Backend: PostgreSQL Database	Platzi · 2024 · 21 h
Building Web Pages with ChatGPT	Platzi · 2023 · 9 h

PYTHON & ARTIFICIAL INTELLIGENCE — 6

Python	Platzi · 2024 · 36 h
Python Programming · Master's in AI	UNIR · 2025 · grade 8.5/10
AWS Machine Learning Foundations	AWS · 2026
Vector Databases and LLM RAG for AI Applications	Udemy · 2026 · 13.5 h
AI Agents	Platzi · 2024
Prompt Engineering with ChatGPT	Platzi · 2023 · 15 h

DATABASES 3

Database Engineer / DBA: PostgreSQL, IBM Db2, MariaDB and NoSQL	Udemy · 2026 · 18 h
PostgreSQL	Platzi · 2023 · 15 h
Introduction to MongoDB	Platzi · 2023 · 13 h

DEVOPS, GIT & DEPLOYMENT 8

End-to-End DevOps: Docker, Kubernetes, Jenkins, GitFlow and CI/CD	Udemy · 2026 · 16.5 h
Professional DevOps	Platzi · 2023 · 16 h
Introduction to DevOps	Platzi · 2023 · 10 h
DevOps with GitLab	Platzi · 2023 · 24 h
Professional Git and GitHub	Platzi · 2023 · 22 h
Git and GitHub from Zero to Expert	Udemy · 2026 · 16 h
Introduction to Application Deployment	Platzi · 2023 · 11 h
Introduction to the Terminal and Command Line	Platzi · 2023 · 11 h

SOFTWARE ARCHITECTURE & QUALITY 8

Software Engineering and Software Architecture	Udemy · 2026 · 20 h
High-Concurrency Architecture Fundamentals	Platzi · 2024 · 15 h
Design Patterns: Practical and Efficient Solutions	Udemy · 2026 · 10 h
SOLID Principles and Clean Code	Udemy · 2026 · 6.5 h
SOLID Principles and Clean Code: Write Quality Code	Udemy · 2026 · 3.5 h
Software Engineering Fundamentals	Platzi · 2024 · 16 h
Software Testing Fundamentals	Platzi · 2024 · 18 h
Object-Oriented Programming	Platzi · 2023 · 20 h

CYBERSECURITY 6

Ethical Hacking	Platzi · 2024 · 16 h
Pentesting with Metasploit	Platzi · 2024 · 12 h
Network Services Pentesting	Platzi · 2024 · 9 h
Web Application Hacking: Server Side	Platzi · 2024 · 7 h
Introduction to Privilege Escalation	Platzi · 2024 · 10 h
Information Security Learning Guide	Platzi · 2024 · 7 h

OTHER LANGUAGES & FUNDAMENTALS 5

Kotlin from Scratch	Platzi · 2023 · 20 h
Functional Programming with Scala	Platzi · 2023 · 16 h
Firebase for Android	
Programming Fundamentals	
Introduction to Blockchain Startups	Platzi · 2023 · 3 h

SOFT SKILLS 3
